Public School Fall Term Examinations

CENTRAL SCHOOL

Grade VII.

Margaret Feilful 88.2, Dulcie Richards 80.8, Helen Kovach 74. Emma Antel 73.8, Bell Flynn 71.7, Gladys Knowles 69.3, Katie Burthill 69, Louis Thomas 68.1, Christie Fraser 66.4, Eddie Yagov 65.3, Sam Gillis 66, Mary Thys 62, George Miller 60.1, Isabel Foster 59.7, Willie Hallow 59.6, Isabelle Atkinson 59, Myrtle Nelson 58.9, John Hallow 56.2, Hartley Dunlop 56, Evelyn Price 55.2, Bruno Rypley 53, Dorcas MacCallum 52.1, Myranda Griffiths 52.1, Edna Benson 51.4, Vera Ash 51.6, Victoria Yagov 51.4, John Novich 51, Violet Depay 50.8, Mary Rypley 50.2, Willie Ferbie 50.1, Alex. MacInnis 50, Annie Mayers 49, Carl Sapets 48.7, Helen Cornett 44.2, Marie MacInnis 43.8, Martin Korman 41.3, Pauline Rypley 40.2, John McCulloch 38.7, John Pearson 38.3, Matthew Burrell 34.7, Karl Bowen 34.6, Frank Cole 27.5 Corrie Goldring and Phyllis Shone did not write examinations as they were absent for most of the work. Class average 55. Number in class 44. N. May MacKinnon, teacher.

Grade VI.

Jelania Cameron 79.9, Marie Olson 78.1, Mildred Higgins 78.1, Mary Piesch 77.3, William Borrows 76.2, Joy Emmerson 72.1, Dora Salueta 71.7, Annie Kiliath 71, Mary Mayers 70.4, John Barler 70.3, Eva Salueta 69.1, Alice Brown 69.1, Anna McInnis 68.1, Malcolm Fraser 68.9, Eliza Cornill 68.6, Ruth Morrison 66.8, Stephen Janostak 65.3, Aileen Apponen 63.3, Olinda DeCocco 62.7, Ivy Snod 60.9, Mary Kulig 59.7, Staffie Rypley 58.4, Gordon Gilchrist 59.2, Ivor Morgan 67.7, Willie Fraser 57.2, Robert Pattinson 57.4, Annie Loyd 55.9, Katie Kubi 55.1, Harvey Roulier 54.4, Jean McQuiston 54.3, Etienne Richard 54.2, Roy Foster 52.7, Tony DeCocco 52, Victoria Milo 49.9, Gene Celli 47.9, George Haulton 47.9, Joe Oliva 47.4, Ross Foster 47, Gordon Miller 46.7, Roy Celli 45, Mary Roughed 44.8, Veronica Thon 44.6, Peter Yousochok 42.6, Thomas Muir 42, Joe Pieuch 41.9, Arthur Thon 41.6, Howard Ash 40.4, Walter Biels 36.6, Lilly Cole 30, Lilly Kiliath 26.6, James Chambers 18.6, Gwen Snowden and Gladys Moore, absent through illness, missed the examinations. Class average 56.32. S. White, teacher.

Grade V.

Robert Cameron 90, Carrie Yagov 88.8, John Danyuk 88.7, Alma Hedberg 87.6, Annie Nicholas 87.5, Annie Spienak 86.3, Patricia Fraser 86, Margaret Nelson 85.8, Margaret Gahara 85.5, Muriel Jackson 84.4, Stella Rypley 83.3, Marina Veners 83, Emma Celli 81.1, Sapets 82, Stanley Atkinson 81.1, Alice Soulet 81.1, George Vincent 79.8, Clarence Clarke 79.1, Roale Czech 78.5, Jack Marconi 76.1, Steve Liska 75.3, Phyllis Nash 75.1, Jennie Pavlov 74.6, John Churila 73.5, Edred Ash 73.5, Charlie Rygutek 73.5, Lena Janak 72.6, Paul Yagov 72.3, Verda Plante 72, William Ravluk 71.1, James Pearson 71, James Muir 70.3, Piersa Angell 69, Henry Malo 67, Gertrude Jackson 66.8, Louise Mars 66.8, Annie Danyuk 66.5, Lawrence Ford 61.3, Bruna Gentile 61.1, Melbourn Cousins 60.1, Mello Celli 58.3, Fred Gilchrist 56.6, Dan Celli 55, Mike Kuhl 49.8, No standing. Laura Thon, absent for tests. A. M. Ouli, teacher.

Grade IV.

Annie Thom 93, Violet Wilson 92, Fernie Dickson 91, Nora McLeod 89, Frank Coccoloni 89, George Snod 88, Eldido Salvador 88, Hilda Heywood 87, Jos Pavlus 87, Joseph Muir 87, Eileen Richards 85, Dora Coy 85, George Helbin 82.5, Blanche Higgins 82, Annie Thys 82, Jack McLeod 82, Wyndham Davies 80, Wallie Yuraseck 80, Julia Simla 80, Jennie Hamka 80, Arthur Cole 78, Josie D'Andrea 78, Mary Yakuliche 70. M. E. Dunlop, teacher.

Grade V.

Margaret McDonald 96, Irene James 95.4, Margaret Robert 94.6, Audrey Dunlop 93.6, Penelope McDonald 93.6, Aileen Allan 92.2, Virginia Olsen 92.2, Hector Esyckers 91.4, Elsie Fontano 90.2, John Kelly 88.2, Edith Phillips 88.2, Thomas Brennan 86.8, Harold Nilson 84.4, Winnifred Phillips 84, Alwyn Hayson 82. M. E. Dunlop, teacher.

Grade III.

Amy Gill 88.2, Jessie Gere 86, Nickie Nicholas 85.6, Jimmy McDonald 85.2, Annetta Griffiths 84.8, Joanna Flynn 85.4, Alberta Phillips 77.4, Alfred Price 78.8, Florina DeCocco 94.8. G. Price, teacher.

Grade IV.

Ellis Derghshire 92, Vincent Janostak 91, Norma Plank 90.4, Johnny James 88.4, Gory Salueta 86.2, George Butnik 84.8, Evan Gushul 84.6, Frank Fraser 83.8, Willie Barber 79.6, Joe Michalsky 78.8, Elizabeth Moore 78.2, Regie Miller 78.2, Helen Kozak 76.8, Mark Rypley 76.8, Rino Fontano 74, Loyd 73.2, Joe Hatake 72.4, Fred Andrus 72.3, Joe Kovack 71.8, Jean Gushul 71.6, Harry Pearson 71.6, Margaret Hall 69.6, C. McInnis 69, Arthur Larcherine 74, Nedie Gushul 66.2, Olive Gushul 66.8, Harry Sella 64.4, Walter Foxton 47.6, Earl Chanderil 42. G. Price, teacher.

Grade III.

Virginia Janostak 93, Myrtle Johnston 93, Jackie Houghton 87.4, Fernie DeCocco 88.2, Louise Heibin 87.2, Wilfred Cameron 86.6, Mary Kobewka 86.4, Matthew Smith 86, Agnes Carmo 84.4, Edred Nelson 83.8, Anna Roth 83, Linda Venera 81.6, Udo Gudmundson 81.6, Eda Angell 81, Gordon Marconi 80.6, Joe Younsick 80.6, Mary Atkinson 80, Margaret Miller 80, Annie D'Andrea 79.6, Margaret Bell 79.4, Ewenie Stewak 78.2, John Pawluk 77, Steve Loyd 76.8, Doris Bowen 76.8, Margaret Gilchrist 76.8, Matthew Brennan 76.6, Norman Yousochok 76, Robert Campbell 75.8, Joe Sygutek 75.6, Charlie Roughed 75.2, Joe Sapets 73, Billie Hammer 72.4, Helen Hancock 72.4, Thelma Vincent 70, Danny Coccoloni 67.4, Peggy Emmerson 66.8, Bobby Emmerson 65, David Fraser 63.6, Woodrow Green 63.6, Lloyd Gilchrist 62.8, George Krosing 62.8, Adam Yousochok 56.8, Ronald McLeod 25.6. Class average 78.1. E. V. Hayson.

Grade II.

Adeline Outfield 94, Mary Kiliath 92, Willie Antrobus 88, William McFarland 88, Claire Scott 87, Daniel Daly 86, Victoria Clarke 86, Dora Carmo 86, Sofia Kovach 86, Enele Salvador 82, George Booth 81, Mike Czech 81, Lidie Tilverhagen 78, Lucy Soulet 78, Maria Ravluk 78, Mar Krosing 77, Joy Ferguson 77, Thelma Scott 76, Irene Michalsky 76, Douglas Cameron 76, Mike Korman 76, John Sudworth 76, Janet Pearson 75, Lily Spillers 73, Frank Gahara 72, Allister Quarry 71, Betty Foxton 70, Mary Chandler 69, Makayn Androchack 68, Kenneth Hall 68, Margaret Gillis 67, Jimmy Grewatt 66, Steve Mura 64, Julie Onocet 64, Steve Gahara 63, Mary Butnik 60, Olga (Continued on Page 8)

Grand Concert By The World-Renowned Welsh Male Choir.

On New Years night the Grand Theatre was thronged with an enthusiastic audience on the occasion of the visit to Coleman of the Rhonda Male Choir. Mr. W. Hayson presided, and in a few words expressed his delight at being able to introduce this wonderful choir for the second time. He dealt in an able manner with a few aspects in the history of these noted singers, and he hoped that many of those who heard them would endeavor to emulate, as far as possible, the persistency of these famous men, to succeed despite disadvantages and obstacles. They have enriched the world with harmony and song. Mayhap we could never hope to aspire to these heights, but in our own modest way, we could certainly leave the world better than we found it.

The choir were then introduced to sing the opening item, "Welsh (Welsh Air) and Pwlling (Welsh) (Elegy)." This was an opening that will be well remembered by all who were there. Every eye upon the conductor, the music was pleasing, the harmony beautiful, and silence reigned supreme.

Then followed a dainty item as one wished to hear, by Richard Owen (Tenor) "Dreams of Long Ago." This singer was a master of the art, and brought the house down with his wonderful range of voice. "The Desert" was introduced and sang "The Desert" followed by "Daddy." The piano introduction to "The Desert" by Prof. Emyln Jones was really charming. Wonderful technique and expression which made one think that sometimes he would surpass the beautiful, which of course, was never the case. Walter Evans then sang with great feeling, and thus completed a wonderful composition. The choir then rendered "Lullaby" (bravos) and "A Marching Song" (Dr. Protheroe) the latter proving that there were some wonderful bass singers. We were then favored with a selection by W. Tudor Williams (Tenor) entitled "Fogho" (Lord Henry Somerset) which was sung with a sweet mellow voice.

Following this the audience was treated to a little change in the form of a quartette entitled, "A Castrorope" (Sprague) which again brought the house down, and was followed by "Myfany" (Dr. Parry). The next item by the choir "The Italian Salad" by (Gosset) was sung at last year's concert. In Coleman was applauded this time more than ever. David Reid (Bass) then sang "Oh Illusion" (Verdi) followed by "Arie O Sun," and the applause that followed proved him an artist of the foremost rank. Then came the last item on the first part of the program, "In Absence" by the choir. This was rendered with apt pianoforte accompaniment, and their voices blended so well that it reminded one of an organ.

SECOND HALF

Prof. Tom Morgan, the conductor, then made a few remarks thanking the audience for the attention they had given, and called upon the choir to sing the last numbers, "Where is He," and "Castella," followed by the Welsh National Anthem and God Save The King.

A great applause which Mr. Harris responded to by playing "The Phantom Melody" (Ktelby.) This was played with such mastery by both Mr. Harris and Prof. Emyln Jones, that it brought forth a greater applause, and will be long remembered by all who were there.

The choir then sang "Bugallo" Gwyneth Gwyn and "Away to the Forest." This was followed by William Phillips (Tenor) singing "Your Thy Hand is Frozen," and "Doncetti's Romance." After that was heard a lovely duet, "Crucifix" by B. Rose and Stephen Jenkins, who did full justice to such a beautiful composition.

The choir were again called upon to sing "Killarney" and "Image of The Rose." Following this Edward Hopkins (Bass) sang "Myself When Young."

Prof. Tom Morgan, the conductor, then made a few remarks thanking the audience for the attention they had given, and called upon the choir to sing the last numbers, "Where is He," and "Castella," followed by the Welsh National Anthem and God Save The King.

The Coleman Glee Society, under whose auspices these artists appeared here, are to be congratulated for the splendid evening's entertainment.

Victoria Rebekah Lodge No. 7, Install Officers

The installation of officers for Victoria Rebekah Lodge No. 7, took place on July 5th, in the I.O.O.F. hall, when Sister R. M. Dunlop, D.D.P., assisted by the following: Sister Burns, Sister Lonsbury, Sister Hope and Sister Morgan, installed the following officers for the incoming term:

P. N. G., Sister Helen Evans. N. G., Sister Lottie Boulton. V. G., Sister Mary Pattinson. Rec-Sec'y., Sister Mary Higgins-Bohn. Fin-Sec'y., Sister Mina Olson. Treas., Sister E. J. Escott. Warden, Sister Rhoda Antrobus. Conductor, Sister M. Dunlop. Chaplain, Sister Emma Rogers. Musician, Sister Louise Hoggan. R. & L. Supporters to N.G., Sisters Hope and Lonsbury. R. & L. Supporters to V.G., Sisters Plante and Yates. I. G., Sister Anna Nash. O. G., Bro. W. Nelson.

After installation Sister Helen Evans was presented by the D.D.P. with a Past Noble Grand's Jewel.

At the close of the meeting refreshments were served.

District Officers Install Local I. O. O. F. Officials

The district officers of the Alberta Lodge, I. O. O. F., under the guidance of Bro. Moreney, D.D.G.M., visited here on Monday and installed the following officers to guide the fortunes of the local lodge for the next term. There was a good attendance and the visit was most instructive.

N. G., Bro. H. Olson. V. G., Bro. Harry W. Clark. R. S., Bro. R. Vincent. Treas., Bro. H. Boulton, P.N.G. Fin. Sec., Bro. Nelson. J.P.G., Bro. W. Hoggan, P.N.G. R.S.N.G., Bro. McKen Hunter, P.N.G. R.S., Vice-Grand Bro. J. Hatfield, P.N.G. L.S.V.G., Bro. W. Burns, P.N.G. I. G., Bro. W. Nelson. O. G., Bro. F. Graham, P.N.G. Warden, Bro. S. Ford. Chaplain, Bro. Beart.

THE MAIL BAG

WHAT A GOOD BAND MEANS TO A TOWN

Coleman, Jan. 4th, 1926

Editor Coleman Journal,

Dear Sir:—

In speaking about bands, and town bands in particular, we sometimes hear people carelessly say, "What good is a band in a town anyway?" Well, first take inventory of the fellow who makes the remark. You may have reason to allow the silly question to go un-answered. But regarding the remark more seriously, let us say that a good band is one of the most useful things a town or community can possess. It is one of the best advertisements a town can have. Emerson says something about the world being a beaten path, well, a good band will make all the roads leading to the town beaten paths, even though the town's other attractions be not enormous. Every merchant is benefitted by a good band like we, have in Coleman.

Many people come to town to attend the delightful entertainments, and they combine shopping with the pleasure. The promoters of business and musical enterprises always have the satisfaction of knowing that their civic demonstrations from time to time will be successful, because they have a first class band to lead the parade and attract the crowd. A band composed of able players is a tower of strength to any town, or section of country. It multiplies the public ear to a high class of music, and does it right at your door, too. Every entertaining club or society should have a band ever he goes.

A Hooster.

Hillcrest Birds Still in Front

At the end of the 9th week in the egg laying contest, F. Lot's pen has a commanding lead of 64 eggs over their nearest competitor.

The province of Alberta will have a new bond issue of \$1,250,000,000 towards the middle or end of this month. The past year has been one of the best for the sale of saving certificates since the sale of these began several years ago. At the end of November the total deposits for the year had passed the two million dollar mark.

HOUSE FOR SALE

House for sale with hardwood floors. Apply to Paul Barnes, Coleman, Alta. 201sp.

Personal and Local

The next and final session of the Alberta legislature before dissolution, will probably be called early in February.

A number of natives from the "land of cakes" at Bellevue, are staging a concert and dance on Thursday, Jan. 21st, and anticipate having a real "Nicht wi' Burns."

J. W. Wallis, O.D., Eyesight Specialist, will be at Powell's Jewellery store on Friday, Jan. 8th, for the purpose of correcting all refractive errors of the eyes. If your eyes are troubling you in any way, you will be wise in having him examine them. Glasses only prescribed when necessary.

Mr. Jas. E. Beaul, of the Kelley Sales Co. of Minneapolis, has charge of the big sale being held by Mrs. H. E. Gate, for which The Journal printed large sale bills this week. These commence Tuesday morning of next week at 9 o'clock. See advertisement on page 8 of this issue.

Mr. W. G. Wells returned Wednesday from a two weeks holiday spent at Edmonton.

Mr. and Mrs. George Kellock entertained a number of friends at bridge at their home on Saturday evening of last week.

The annual meeting of the congregation of the United Church is to take place on Monday evening, January 11th. This is always an interesting gathering.

The sacrament of the Lord's supper is to be administered in the United Church on Sunday, January 10th, at 11 a.m.

After weeks of waiting for ice Coleman curlers got away on Monday evening, when the first game in the Morrison Cup schedule was played between Whiteside and Moore, resulting in a win for the latter rink by a score of 7-6 after an extra end. Four other games were played in this competition on Wednesday night.

Born to Mr. and Mrs. M. G. Constantine, on Wednesday, January 6th, a baby girl. Both mother and daughter are doing fine.

Owing to The Journal job dept being rushed with work this week, The Journal is a day late in publishing and a quantity of local news is unavoidably left out of the current issue.

Glorious Spring-like weather still prevails in the vicinity of Coleman, a few degrees of frost at night, several old Sol beaming down during the day in the month of January, is by no means new and welcome experience in this part of Canada. Junior, who got a sleigh from Santa, curlers and hockey fans, are the only ones voicing complaint.

Mr. W. R. Morrison, of Macleod, is putting on a big clearance sale for Cash Nicholas. The Journal job dept printed a large sale poster early this week announcing the big event. The sale opens Saturday morning and continues for 15 days.

The Arena opened Saturday evening last for skating and was well patronized despite rough ice.

The Town Band desires to thank all those who donated to the band on Christmas and New Years. All cash donations were put in the band fund for the purpose of buying new music.

Letlbridge Vets. and the local Tigers tangle in a Crow League fixture on Friday night.

Mr. and Mrs. J. Cox entertained the members of the Rhonda Choir at their home after the concert on New Year's night.

Successful Colonization Means Increased Immigration

The continued development, progress and prosperity of Canada is dependent upon a continuing increase in population, and having now entered upon the second quarter of "Canada's Century" it is of prime importance to themselves and their country that all Canadians take a sincere and active interest in promoting this, the Dominion's first and greatest asset.

It has, however, become increasingly evident during the past few years that the problem that confronts Canada in the field of immigration is not so much immigration itself as colonization. If the Federal Government and Parliament saw fit to take down all the bars to immigration there is hardly any question but that very large numbers of people from European countries would come to Canada. But it is open to serious question whether an unrestricted influx of people would be in the best interests of the Dominion, or of these incoming people themselves.

Neither Government and Parliament, nor Canadians in general, are of the opinion that such an unrestricted influx of people would be desirable. The opinion still prevails, and wisely so, that there must be selection of immigrants, although it is now recognized that there can well be, and ought to be, some relaxation of the restrictions imposed during those years immediately following the war.

While, therefore, immigration regulations will undoubtedly be modified, and efforts put forth to secure a larger number of people in this and succeeding years, the main effort of the Dominion Government, transportation companies, and all bodies directly or indirectly interested in the settlement of our vacant areas, will be in the direction of successful and therefore permanent settlement; in word, the promotion of colonization rather than the mere encouragement of the immigration of people to Canada.

Past experience establishes the wisdom and necessity of such a policy. Carrying it into effect, however, cannot be left solely to Government. It will call for the active interest and participation of the whole people of Canada, and may well constitute one of the major activities of all organizations such as Boards of Trade, Canadian Clubs, the various service clubs, farmers' organizations, churches, Community Clubs, and all kindred organizations.

Successful colonization means the placing of new settlers in districts where their labors will be crowned with success, where their surroundings and neighbors will be congenial, where they will not lack the essentials necessary to the making of happy, prosperous, contented homes.

To cite one example. Late in 1921 the Swiss Settlement Society was organized in Canada under a Dominion Charter with headquarters in Montreal, with the object of encouraging Swiss settlement in Canada. This Society, in its first year, has been remarkably successful in securing the support, financial and otherwise, of prominent people throughout Canada, in Switzerland and the United States. It is engaged in getting in touch with all Swiss now resident in Canada and ascertaining the measure of their success here, the problems which confronted them and how they were overcome, the problems and difficulties still to be overcome. The Society aims to help them, but at the same time to make known to the Swiss people in Switzerland and the United States the actual experiences and successes of their countrymen in Canada, and to assist such new immigrants to locate in desirable communities on arrival here and to help them in all possible ways to succeed. That is, there is an organized Society to which all Swiss in Canada can turn for helpful advice and assistance.

Reference may be made to another development which is bound to have a permanently beneficial colonization effect. In its peace-time work the Canadian Red Cross Society aims at the improvement of health, the prevention of disease, and the mitigation of suffering. In its efforts in these directions it has taken particular notice of the need of nursing care for expectant mothers and children, and sick and accident cases among the new settlers in remote and pioneer districts where doctors are few in number and far distant from the settlers' homes, and where as yet the population is too small to warrant the establishment of hospitals. In such districts the Red Cross is establishing Nursing Outposts with fully qualified nurses in charge. Over thirty such Outposts have now been established by the Red Cross in Alberta, Saskatchewan, Manitoba and Northern Ontario. Others are being opened as rapidly as the funds of the Red Cross will permit, and only recently an English nursing nurse has been sent to the equipment of two additional Outposts in Saskatchewan districts into which British settlers are now going.

These are real moves calculated to promote permanent and successful colonization. Such societies as the two cited, and others that might be mentioned having the same object in view, are deserving of the cordial sympathy and hearty support of the people of Canada. They are helping to make growth and to bring about the realization of the prophecy that the "Twentieth Century belongs to Canada."

Successful colonization means not only retaining the settlers who do come, but it means larger immigration because an ever increasing number of people will come to participate in the success of these others. Thus will Canada grow and prosper as it ought to do and as Nature by her varied and bountiful gifts intended it should.

Six-Foot Lizard
A live specimen of the Varanus or Monitor Lizard has arrived at the London Zoo from Sumatra. It measures from six to seven feet from tip of nose and has a tongue that is black for the greater part of its length of 15 inches.

Plants Have Muscular Power
New and definite evidence that plants have muscular powers has been announced by Sir Jagadish Chandra Bose, the famous Hindu scientist of Calcutta, who already is responsible for many valuable discoveries in connection with plant life.

Children Cry for

Fletcher's CASTORIA

MOTHER: Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea, allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of **Dr. J. C. Fletcher**. Absolutely Harmless - No Opium. Physicians everywhere recommend it.

Arabs Using Autos Instead Of Camels

Sheikhs Find Them Practical in Raising Enemy Tribes

American enterprise, which has already put the sheik on the map, is now putting him into a Ford. For countless centuries, says a London Morning Post dispatch from Baghdad, Arab has relied Arab, relying on the camel as a means of traveling, the wide spaces which separate one desert encampment from another.

But in this century of change the time-honored "ship of the desert" seems doomed to be replaced by the motor car, for one of the Iraqis recently carried out a raid against another in Syrian territory by means of three Ford cars.

The tall, bearded figure of Ali-Al-Yawar, sheik of the tribe concerned, has frequently been seen in flowing Arab dress driving his Ford in the streets of Baghdad. The discovery of the martial tale to which the Ford has been put, as in the eyes of the Bedouin, robbed a once mental task of its shame.

THE CHEERFUL WOMAN

Is One Who Has the Rich, Red Blood of Good Health

The fact that one woman is bright-eyed, ruddy-cheeked, strong and cheerful, while another is pale, weak and depressed is due more often than otherwise to the condition of the blood. The blood is the life of the body, and it is the duty of every woman to keep it in the best possible state. The blood is the life of the body, and it is the duty of every woman to keep it in the best possible state. The blood is the life of the body, and it is the duty of every woman to keep it in the best possible state.

You can get the pills from your druggist, or by mail at 50 cents a box of six, or by mail at 50 cents a box of six, or by mail at 50 cents a box of six.

New Design For Aeroplane

Machine With Central Engine Room Being Built As Experiment

An aeroplane has been designed, the chief feature of which is a central engine room. As it is an experimental type, only two 450 h.p. Napier Lion engines have been fitted, but, pursuing the same lines of design, the experts believe that there is no reason why half-a-dozen or even more engines should not be fitted into a machine able to take them. They see in it the forerunner of the type of air liner which, when flying has become more fully developed, will play regularly between London and New York. This experimental craft, which is known as the Bodini-Napier, has been under design and construction for between two and three years.

Canada First

Leads the World in Increase in Agricultural Production

"Of all the agricultural countries of the world, Canada stands first in regards ratio of increase of production in the past twenty-five years," said Dr. J. H. Grisdale, deputy minister of agriculture. Wheat production in 1925 was over 600 per cent greater in yield than in 1900; oats, 250 per cent; barley, 500 per cent; rye, 600 per cent; forage, 200 per cent; hay, 100 per cent; beef breeding, 125 per cent; beef breeding, 70 per cent; swine, 85 per cent; and poultry, 130 per cent.

Would Revise U. S. Immigration Laws

Revision of the United States immigration law to permit entry to the excess of quota limitations of skilled agriculturists, was urged before the House Immigration commission by Hugh McCrear, of Wilmington, N.C., who declared such modification would produce many benefits to farming.

Shot New Species

"What is the name of the species I have just shot?" demanded the amateur hunter of his guide.

"Well, sir," returned the guide, "I've just been investigating and he says his name is Smith."

Mrs. Bonham—"There's a rift in the lute—"

Bonham—"Don't bother me about it; get a plumber."

A girl can always tell when a man is in love with her by the way he looks at her when she isn't looking.

Secret Of The Air

Dutch Passenger Monoplane Vanished Completely, Leaving No Trace

A group of "air express" pilots in London, some about to begin and others having just completed flights at 100 miles an hour between London and the continent, were discussing the strangest things that have happened in aviation since men first flew.

They agreed that for sheer mystery no case equals that which threw a gloom over the London air station not long ago.

A Dutch passenger monoplane ascended one afternoon to what its scheduled flight to Amsterdam. An experienced pilot was in charge, and the weather was not unfavorable. There were no circumstances to cause alarm.

Yet from that day to this there has been no news or trace of that machine. It simply went up into the air and vanished. It never reached Amsterdam. It never landed anywhere.

The only theory experts can advance is that while on the cross Channel flight the engine failed and the plane fell into the water. Unfortunately, it was not fitted with wireless, so the airman had no chance of broadcasting an "S.O.S."

It is strange, however, that no trace of the machine was ever found. Nor were any of the bodies retrieved.

Swiss Colonization In Canada

Sending Out Questionnaires to Swiss Working on the Land

The Swiss Settlement Society of Canada, as our readers remember, was formed for the purpose of establishing Swiss immigrant farms which would be settlers on their own account in settlements congenial to them, is sending out at present an interesting pamphlet and questionnaire to the Swiss working on the land.

The questionnaire asks for information of the problem which each settler will solve in his own mind, and will also be sent to give him intelligent assistance in his quest.

Pamphlet and questionnaire can be obtained from Fritz Koch, Secretary of the Society, 11 Bishop St., Montreal. Western address: Care of Immigration Hall, Winnipeg.

Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.R., writes: "I suffered from palpitation of the heart and fainting spells, at times, I could not be left alone I was so nervous."

My trouble was caused from over-work and worry, having been left alone with a large family. I had tried everything, without any relief, but I know, to-day, that I would have been a nervous wreck but for your wonderful

MILBURN'S HEART NERVE PILLS

These Pills are for sale at all drug stores and dealers; put up only by The R. Milburn Co., Limited, Toronto, Ont.

Valuable Book For McGill Library

The 200,000th book of the McGill University Library, reached in McGill University library, and to celebrate the occasion a special book, a literary treasure of rarity and value was put in as the two hundred thousandth book—an old Italian book

Anatomy of Aristotle's *Respiration*, Archbishop of Bologna in 1683. It is entitled "Man and His Parts," collected and explained with illustrations, from sacred and secular authors, in two separate books.

Discovers New Metal

Prof. Bohr, well-known German research worker in the domain of the atom, claims to have invented a new metal called hafnium. The element is produced in the form of a dark gray powder, and according to its discoverer, is especially suitable for many various parts of radio sending and receiving sets.

Lustania Awards Completed

Lustania awards have now been completed, and victims of the sinking of that ill-fated vessel, May 7, 1915, 395 in number, have been allotted the sum of \$15,146.059.

Minnard's Liniment relieves headaches

W. N. U. 1610

SUNDAY SCHOOL LESSON

JANUARY 10

SIX MEN BELIEVE ON JESUS

Golden Text: Behold, the Lamb of God, that taketh away the sin of the world! John 1:29.

Lesson: John 1:19-51.

Devotional Reading: Isaiah 53:1-2.

Explanations and Comments

The Winning of Andrew and John, verses 28-30.—On the morrow after his conversation with the deputation of priests and Levites from Jerusalem who came to ask if he were the expected Christ (verses 19-28), John the Baptist, the herald of the Christ, pointed out Jesus to his disciples as the Lamb of God that taketh away the sin of the world (verse 29-34). Again, on the morrow after that, two of the Baptist's disciples, Andrew and probably John, were standing with him when he saw Jesus in the distance and said to them, "Behold, the Lamb of God!" (The word Lamb is used for Christ more than seventy times in the Book of Revelation and indicates sacrifice.) The Baptist's words suggested to the disciples that they follow the greater Master. When Jesus turned and saw the two following him, he said to them, "What seek ye?" He opened their minds because he wished to fill it, "observing an ancient writ."

The Proven Asthma Remedy. Since asthma existed there has been no lack of what is called remedies, but they have proved almost entirely useless. The ever-growing reputation of Dr. J. C. Little's Asthma Remedy is due to its place in the field of medicine which no other can approach. It has never been surpassed by any other method, but has simply gone on effecting relief and making new converts.

Loss Naturalization Papers

Fourteen Aliens Lose Canadian Citizenship For Various Causes

Fourteen certificates of naturalization of aliens in Canada as British subjects have been revoked by order in council.

Those whose certificates have been cancelled, it was learned at the secretary of state department, include two Germans, one Assyrian, two Russians, and a number from various parts of Central Europe.

Conviction of criminal offences, carrying with them deportation, is a reason given for revocation in two instances. In the other cases, false representation in procuring naturalization was the cause of cancellation. The majority of the cancelled certificates have already left Canada.

Saskatchewan Egg Pool

Proposed Egg and Poultry Pool Is Now An Assured Success

"Present indications are that the Saskatchewan egg and poultry pool is an assured success and that the pool will be functioning by the time eggs start to move in the spring," declared G. F. Edwards, chairman of the provincial board of directors.

Over 1,000 contracts have already been secured and they are being received at the pool headquarters in Regina at the rate of about 100 a day. It is estimated that the production already under contract is in the neighborhood of one billion dozen eggs a year.

Must Not Use Name

For Trade Mark

Name Of President Hindenburg Of Germany Is Protected

A dispatch from Berlin says President Hindenburg's name may not be used in a means of glorifying salads, stomach fillers, insect powders, coffee and other wares.

The Reich's patent office has declared that as a trade mark the name Hindenburg must not be used. By application to the patent office prominent public persons may be protected against the use of their name as advertising.

For Both House and Stable—Tally

is a good deal of similarity, physically, between human beings and animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eucalypti is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Cook's Regulating Compound

A safe, reliable, regulating medicine for the bowels.

What Pretty Girl Did for Sick Stomach

Miss R. Rich of Brooklyn, N. Y., says: "I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite would be poor and I felt sick to my stomach—to say nothing of heart-aches."

"I never thought of using Carter's Little Liver Pills until nothing seemed to help. After using Carter's I felt better and my appetite improved. My stomach 'talks' back I answer with Carter's and have the last word."

Recommended and for sale by all drug stores, 25c.

Alberta Corn Growers

Accreage Devoted to This Crop Is Rapidly Increasing

Recent successes of the provincial exhibition held in Lethbridge, amply prove the suitability of this district for corn growing. The acreage devoted to this crop in Alberta has made great strides in recent years. In 1919 only 300 acres in Alberta were planted to corn. In the following year the acreage increased to 2,000; in 1922 to 15,000; in 1923 to 52,900; and last year to 68,000.

Whether the crop be of old or new growth, it must yield to Holloway's Corn Remover.

Chilled nations are those that feel the need of protection from the savagery of one another.

PREPARING FOR THE OPENING OF PARLIAMENT

Ottawa.—A cabinet meeting will be held to prepare the speech from the throne, with which parliament is to be opened formally on Friday, following the election of a speaker on the day before. Sub-committees of the cabinet have been dealing with a number of matters which, if occurred, will be foreseen in the official utterance placed in the hands of the governor general. Although there is no announcement concerning it, reasons exist for believing that a measure establishing a system of rural credits will be presented; that an amendment of the law will be introduced and possible reduction of taxation introduced along with an alternative vote bill, the main estimates and some legislation in connection with an advanced programme. While, under the circumstances that prevail, it may not be extensive, the programme of legislation will be an average one and the government in certain positions will not influence the character of the proposals.

If parliamentary support is forthcoming, as is commonly expected, the bills will be introduced, if not, they will go into the discard. As parliament draws near, the deepening impression is that the government will be sustained by a narrow majority. Whether, in the event, it will be preceded with an adjournment made for purposes of cabinet adjustment, is a matter which is not clear and is likely to depend upon the parliamentary situation as it develops. The general expectation, however, is that some recess will be sought, although members from distant points will not take kindly to it.

In the meantime, conservative members are leading to the initial order papers with all sorts of questions and motions for returns, most of which have a bearing upon subjects discussed in the campaign.

Want Better Rate

On Alberta Coal

Premier Ferguson Says \$7.00 Per Ton Highest Ontario Can Stand For Freight

Edmonton.—Better freight rates on Alberta coal shipments to Ontario points will be discussed by Premier Ferguson as one of the items on the programme for his eastern trip. The premier said when asked about the resumption of coal shipments to Ontario at the \$7 freight rate that there is still a balance of about 7,000 tons to be shipped under the temporary arrangement with the Canadian National Railway and that he understands the way to be done now for the remaining portion of the quota to go forward. As soon as the mines are ready, according to a reported statement by Sir Henry Thornton, in the east, the special reduced rate will be resumed to the extent of the unexported tonnage still to be shipped.

Toronto.—Premier Ferguson expressed the opinion that the Dominion railway board should fix the freight rate on Alberta coal to Ontario at \$7 per ton. If the railway were ordered to carry Alberta coal the Ontario Government would aid in its distribution and guarantee the freight to the railway, said the premier. He said \$7 was the highest rate coal from Alberta could stand and that such coal already received here had proved highly satisfactory.

Alberta Coal For East

Railway Prepared to Resume Shipments At Any Time

Toronto.—The Canadian National Railway is prepared to commence the shipment at any time of the 5,000,000 tons of Alberta coal which is the balance of the 25,000 tons agreed upon in the summer at the \$7 a ton freight rate, Sir Henry Thornton, president of the C.N.R., has informed the Ontario Government in replying to communications on the matter.

As to the suggestion that the special rate of \$7 should be extended to further supplies of Alberta coal over the 25,000 tons, Sir Henry replied, according to Hon. Charles Mowat, minister of mines, that he did not think there was any immediate necessity for moving an additional amount, but that he was keeping in close touch with the situation.

Urge National Meet

Winnipeg.—The calling of a national Tuzla Parliament along the lines of a conference "as soon as it is deemed expedient by the National Body" was urged in a feature resolution adopted by the fourth Manitoba Tuzla Body's Parliament here.

Says Wheat Advance Was Necessary

Not Retaliation For Rubber Prices

Award U. S. Millers Chicago.—Economic laws and not retaliatory measures are responsible for an increase in the price of flour in Great Britain, millers of the United States have replied to British suggestions that the wheat merchants of this country are seeking revenge for British duties on molasses.

The present wheat price increase has its immediate cause in the wheat shortage in Argentina, said J. Crosby, president of the Washburn-Crosby mills at Minneapolis. It was explained that the effect was world wide, and not confined to Britain, which was surprised by an unexpected rise of two shillings in the price of a 250-pound sack of flour.

Cables from London said that the flour increase had aroused considerable adverse comment because of the fact that the government statistics indicated a world surplus of wheat and that the subject would be inquired into by the Master Bakers' Protective Society.

A member of this organization was quoted as saying that "American wheat merchants, knowing that the British dealers have the whip hand in rubber, are retaliating in wheat."

Homeless Children

Arrested in Moscow

Gangs of Waifs Stage Holdups in Russian City

Moscow.—Four boys, aged 12 to 13, have been arrested in Moscow for organizing a gang of homeless children on the Lubanskaya market at Moscow. The attack occurred at noon on the day before Christmas when, at a signal, thirty street waifs began plundering the market, which is located in a square in front of the Cheka headquarters.

A riot developed of such proportions that mounted police were called. The police reported the arrest of another group of 18 homeless children found living in a frozen sewer emptying into the Moscow River in the heart of the city.

The ages of the boys and girls ranged from 10 to 16 and the leader was a 15-year-old orphan. The children were arrested after staging numerous robberies on the street, blanketing a week-end tea party, kidnapping all under 16, were arrested for kidnapping better dressed children and stealing their clothing before liberating them near police stations.

Marriage Of Prince

Being Discussed Again

Niece of Sweden's King Is Latest

Guest of British Society in London.—British society is again speculating as to whether a possible bride has finally been found for the Prince of Wales.

The speculation follows an announcement that Princess Astrid, niece of the King of Sweden, who is immensely popular with King George and Queen Mary, is to be sent to Buckingham Palace as soon as the period of court mourning for Duxeter Queen Alexandra ends.

Astrid, who is twenty, is one of the prettiest younger members of European royalty. She has an attractive personality, is a splendid dancer, is fond of country life and sports and is well versed in domestic science.

She is a daughter of Prince Charles and Princess Ingeborg, being a grand niece on her mother's side of the Dowager Queen Alexandra.

Four Montana Banks Close

Helena, Mont.—Four banks, two of them national institutions, closed their doors in the last 24 hours, the state bank examiners' office announced Dec. 29. The institutions were the State Bank of Nassau, the First National Bank, the Valley County State Bank of Hilsdale, and the Glasgow National Bank. The banks had a total capital stock of \$135,000.

Allies Quit Bulgaria

Sofia.—Premier Tschirko has been notified by the allied representatives that the allies will withdraw their military control commission from Bulgaria in the immediate future. This decision has been taken as a result of a report to the council of ambassadors that all the military provisions of the peace treaty with Bulgaria have been complied with.

To Pay Direct

Ottawa.—The British Government will pay pensions to its war veterans now resident in Canada direct after March 1 instead of through the Canadian department of civil rehabilitation. This applies also to the Canadians who served in British units and draw pensions and other awards from the Imperial Government.

Sending Ore To Smelters

Hundred Tons From Flin Flon Mine to Be Shipped in December

The Flin Flon, Man.—Four Ross Navigation Company's teams arrived here loaded with 50 tons of Flin Flon copper, gold, silver ore for immediate transshipment to Denver, Colo., smelters.

Another 50 tons will be brought in by these teams as soon as they can return.

Upon the experimental metallurgical tests of the 100 tons of ore, which is an average sample of the ore, will largely depend the extent of this summer's development of the Flin Flon mine.

While previous tests have proven satisfactory, yet the final work of determining whether or not on a large scale an economical process of recovering the total values in this exceptional ore is commercially practicable now lies in the hands of expert metallurgists. Their assays and recommendations will be awaited with interest throughout Canada.

FORRESTORATION WORK ON RANGE LANDS OF WEST

Ottawa.—Leonard B. Thomson, of the Alberta department of agriculture, Edmonton, has been appointed field bushman with the federal department of agriculture, and Sydney E. Clarke, at present on the university staff at Rochester, Minn., has been appointed assistant agent.

These appointments, which have been made by the civil service commission, follow representations some months ago to the department by organizations representing the ranching interests of Western Canada that some experimental and demonstration work should be carried on by the government in range lands.

Such work, it was represented, was particularly necessary with respect to the reseeded of abandoned homesteads or other cultivated lands, the study of the possibilities and reproductive capacity of grasses in grazing areas, and the study of the problems of the carrying power of range land.

Mr. Thomson will make a study of the carrying power of range land, and Mr. Clarke will conduct a study of grass varieties and their habits.

A comprehensive schedule of work has been laid out, which includes a preliminary survey of range lands in the west.

PLENTY OF CASH NOW AVAILABLE FOR INVESTMENT

Toronto.—"There is in Canada today \$125,000,000 more money available for general business purposes than usual at this time of year," Sir John Aird, president of the Canadian Bank of Commerce, said today. "There is plenty of money available to finance new undertakings needed for the development of Canada. The Dominion is in splendid shape to go ahead. Manufacturers, in practically all lines and commercial houses in general have this fall reduced their indebtedness to an extent impossible for several years past. All the banks show the same thing—a great reduction in commercial loans and a big increase in bank investments in stocks and bonds."

Giant Meteor Falls

Flashes Across Sky in Brilliant Illumination in Eastern Canada

Ottawa.—In the opinion of Ralph Delury, Dominion Government astronomer, an unusual phenomenon witnessed in the northern states by Rev. E. G. May, rector of the Anglican Church at Chelsea, Que., and other residents of that district, may mean that a huge meteoric had dropped to earth somewhere in this district.

Rev. Mr. May saw a star or comet fully the size of the eastern giant, which flashed across the sky in a brilliant illumination, and disappeared over the rim of the hills, which were lit up by the reflection.

After it had passed beyond the horizon formed by the hills, a narrow band of brilliant light remained visible for fully five minutes, to gradually disappear as though dispersed by wind.

Mennonites Returning

Are Not Satisfied With Conditions in Mexico, Says Member of Party

Montreal.—Mennonites are not satisfied with the conditions in the Rosario, Mexico, settlement, to which they emigrated on mass from Canada, and are returning to the Dominion, according to Hans Siedler, a member of a party of 250, who arrived here from St. John.

They are going to Mennonite settlements in Manitoba, Alberta and Saskatchewan.

Ottawa State Dinner

Ottawa.—The state dinner will be held on the night of the opening of parliament. Announcement is made that the dinner will be held at a date to be announced later instead of on the night of the opening.

RAILWAYS PLAN TO ECONOMIZE ON OPERATION

Toronto.—A special dispatch from Ottawa to the Globe says:

"An important step in the direction of economy for the Canadian National and Canadian Pacific Railways by the elimination of needless and costly duplication of train service was announced by R. Hon. G. F. Graham, minister of railways and canals, who stated that according to communications just received from Sir Henry Thornton and E. W. Beatty, K.C., the traffic and operating officials of the two railways have constituted themselves into a joint permanent committee to deal in a fair and broad way with all questions of competitive service to effect economy and preserve at the same time efficiency."

"Already the Canadian National has moved to suspend some trains in Ontario and in other parts of the country that are found to be a financial burden upon the taxpayers. The latest time tables disclose a number of such eliminations and it is estimated that the annual saving through this downward revision of train schedule will amount to \$300,000 to the Canadian taxpayers."

"It is understood that a similar move has been made by the Canadian Pacific, although not quite so wide in scope. With this new agreement, a few more trains in highly competitive regions such as those between Ottawa and Montreal and possibly in the west will be eliminated."

General Election Votes

More Electors Cast Votes in 1925 Than in 1921

Ottawa.—An analysis of the popular vote cast in the general election of October 29 reveals that approximately 71.3 per cent of those persons on the electoral list exercised the franchise. In the 1921 general election the estimate was that 70.3 per cent of eligible voters cast ballots. The popular vote of the election this year was 3,575,571. This is 25,721 more than the popular vote of 1921. It is assumed by electoral officials that the numbers on the eligible voters list were 4,845,510.

By province the total votes are as follows: In Ontario 2,049,448; in Quebec 480 votes were cast to return four members to parliament; in New Brunswick, 151,850 votes to return 11 members; in Nova Scotia, 228,475 votes to return 12 members; in Quebec, 465,565 votes were cast to elect 65 members; in Ontario, 1,229,311 votes were cast to elect 82 members; in Manitoba, 188,496 votes were for 37 members; in Saskatchewan, 188,496 votes for 21 members; in Alberta, 169,609 votes for 16 seats; in British Columbia, 122,718 ballots cast to elect 14 members; in the Yukon there were 1,250 votes for one seat.

Winnipeg-Toronto Daily Air Service

Company Expects to Inaugurate Line About June 1

Dubois, Pa.—Asked about the commercial air service which an organization represents as creating, secretary plans to start between Toronto and Winnipeg, J. M. Clark said it was expected to inaugurate the line about June 1. He said the service probably would be inaugurated with the use of five planes, all of a late type make one trip daily each way and carry both passengers and freight.

A WORLD-WIDE WHEAT SELLING PLAN IS MOOTED

Winnipeg.—The conference of Co-operating Marketing Associations, which was initiated by the Canadian wheat pools, and was first set for November 13 at Regina, Sask., and was postponed, will be held in St. Paul, Minn., Feb. 16, according to word received here. Four countries will be represented—Canada, the United States, Argentina and Australia. Great Britain may also send a delegate.

It has been intimated that at this conference a move will be made to organize a world-wide wheat marketing association. It is understood that the Canadian wheat pools have been making a thorough investigation into the marketing situation in various countries and the results of the study will be placed before the conference.

Reports here state that the North Dakota Wheat Growers' Association will be largely represented at the conference, as well as the three Canadian prairie wheat pools.

Reports here state that the North Dakota Wheat Growers' Association will be largely represented at the conference, as well as the three Canadian prairie wheat pools.

Serious Floods In Roumania

Over Hundred Reported Drowned and Thousands Are Homeless

Vienna.—Thousands of persons are homeless, more than a hundred have been drowned and other hundreds are fighting for life and house-top refuge, in the flooded Transylvania section of Roumania, according to dispatches from Budapest.

A sudden thaw, following a series of heavy snows, turned rivers into torrential floods, overthrowing large areas.

Bolshevik Troops Cross Afghan Boundary

British Foreign Office Is Watching Situation Closely

London.—Considerable importance is attached here to the recent crossing of the Afghan boundary by Bolshevik troops. Exact details are lacking, but it is understood that several Afghan officers and in many more were killed in an unprovoked attack by Russian border troops in a district always acknowledged to be part of Afghanistan.

The importance of the affair lies not in the fact that blood was shed, but in the circumstances that an avowed part of Great Britain's policy regarding India is the absolute necessity of all the Afghanistan area to the British Empire. Cable newspapers report that bitter indignation exists among the people of Afghanistan.

It is an open secret that the Soviet authorities regard the desolate mountainous Afghan frontier as their pathway to India and for this reason the British foreign office is watching the situation closely.

Extend Quota Law

Montreal.—According to Commissioner Harry Landis, of the United States immigration office here, there is a strong movement on foot both in Canada and the United States, to make the quota law apply to both Canada and the United States.

Montreal Has Rough Trip St. John, N.B.—The worst weather that the Canadian Pacific over Montreal has had in her thirty-eight years' voyage across the Atlantic, has the opinion of officials of this line, on her arrival here from Liverpool.

THE REGINA LEADER RUGBY TROPHY

At last an annual playoff for the Canadian junior rugby championship has become a reality! The materialization was aided by the donation of a championship trophy by The Regina Leader. Above is the first photograph of the trophy which is described as one of the finest prizes in any line of sport. The Regina Post fell short of it by two points when they lost the 1925 final in Montreal two weeks ago to the M.A.A.A. team who therefore have the distinction of being the first holders. Presented through the C.R.F.U., it is to be a permanent trophy.

THURSDAY, JANUARY 7, 1926

Here and There

British Columbia's whaling industry produces about 400 tons of whale bone meal and 900 tons of meat and blood for fertilizing purposes annually. This is exported mostly to the United States.

According to G. F. Tomsett, superintendent of the Saskatchewan Branch of the Employment Service of Canada, about 43,000 harvest hands were brought into Saskatchewan and distributed over the province to harvest and thresh the 1925 crop.

J. Stapleton, of Regina, ordered two springer spaniel puppies from a dog agent in Liverpool on October 9th. Thirty days later they were delivered to him after a voyage and journey totalling 4,500 miles, the shipment going at the rate of 150 miles a day. This constitutes a record for speed.

Constituting a record for Canada and probably for the world, 8,447,624 bushels of all grains were marketed on the lines of the Canadian Pacific Railway in Western Canada on November 19. The nearest approach to this figure was the 5,496,000 bushels marketed on October 18, 1915, in the year of one of the greatest crops the Dominion has ever harvested.

Reports received at Canadian Pacific Railway headquarters this week show that four more accidents occurred in cases where motorists drove their cars into trains already in the process of crossing levels. This brings the total of accidents of this kind up to thirty for the year. In all four cases the automobiles were damaged while the motorists escaped with minor injuries.

Eighty-seven black foxes, valued at about \$100,000, shipped in 44 crates, arrived at Montreal last week from Buffalo. Twenty-five of the animals were prize-winners at the Black Fox Exhibition which concluded last week, and were on consignment to the Borestone Mountain Fox Ranch at Onawa, Maine.

The Far East has heard about Canadian apples. The Canadian Pacific liner Empress of Asia carried 8,000 boxes of apples, which clearing out of Vancouver last week. General trade conditions between Canada and the Far East are quite healthy as there was also on board the vessel 800 tons of Canadian flour, 100 automobiles and 160 tons of Alberta beef.

With each succeeding year Great Britain is relying more upon British colonies for agricultural supplies. In the seven months of 1925 ending July, Canada supplied Great Britain with 4,927,286 pounds of butter, compared with 154,224 pounds for the same period of 1924, and 40,458,514 pounds of cheese, compared to 20,153,504 pounds for the same period of last year.

Two bears, six coyotes and fifteen chipmunks were shipped to England on the Canadian Pacific liner Montclair last week from the Toronto Zoo to the London Zoo. In exchange, the Curator of these gardens has been asked to supply Toronto with Corais, Bean, Magellan and bar-headed geese; shell ducks; a female Comb Duck; two Rheas (ostriches); four Jays; two young leopards; and a Barbary Sheep. A stiff order.

Six champion juvenile swine breeders, winners in Manitoba, Saskatchewan and Alberta, have been awarded medals and trophies by the Canadian Pacific Railway and are now the guests of the latter at the Royal Winter Fair at Toronto. The young people, who competed in clubs on Canadian Pacific lines in the West are: Vern Johnson and Oscar Goddard, Alberta; Lorne Joynt and Fred Argue, Rouleau, Saskatchewan; Marion Cermack and Grace Ewan, Kamis, Manitoba.

Here and There

Major-General Sir Fabian Ware, vice-chairman of the Imperial War Graves Commission, who has been visiting in Canada during October, has been recalled to England much earlier than he expected. Prior to sailing on the Canadian Pacific liner, Montclair, from Montreal, he expressed the hope that he would be able to come to Canada again next spring so that he could help Canadians in the West, some idea of what the Imperial Commission is doing in caring for the graves of western youths who perished during the war.

Robert L. Rice, Jr., of Boston, and Y. Cole, of Harvard, took big chances when they attempted to travel by canoe from Rogan to Angliers at the end of October. Although they started in beautiful Indian summer weather they ran into a bad storm which filled their canoe with half-melted snow and almost froze them into unconsciousness. Fortunately they arrived in the nick of time at a fire-ranger's hut where they stayed a few days until the storm abated. They were prospecting in the neighborhood and were none the worse for their perilous trip when they finally reached Montreal.

Bob Shawkey, New York Yankee veteran pitcher, who organized the party of major league baseball players now hunting big game in New Brunswick, had a moose with antlers spreading 59 inches and having 230 points, according to word received at Fredericton, N.B. Shawkey shot his moose the first day the party spent in the woods. This information is conveyed by another party of hunters who passed the camp of the ball players at Nepisiqui Lakes. In the group are some of the best known players in the American League, Eddie Collins, Babe Ruth and Muddy Ruel being among them.

The romance of a world cruise culminated in New York City recently when Dorothy Holmes O'Ryan, daughter of Major-General and Mrs. John F. O'Ryan, of New York, married Darwin Curtis, of Chicago. The couple met for the first time a year ago on board the Canadian Pacific liner Empress of France which was then making a tour of the world. It is feared they had no eyes for the world marvels which were unveiled before them on the tour, since it is stated they fell in love at first sight and could only see each other. The marriage was performed by the Rev. Father Francis Duffy, chaplain of the "Fighting Sixty-ninth," a regiment commanded by the bride's father during the war.

Involving the use of 8 1/2 million tons of crushed rock, or about 70,000 carloads, approximately 1,000 miles along the Canadian Pacific Railway, Eastern Lines, have been ballasted with rock to date. Rock ballast is dustless and there is a very great increase in comfort for the passenger. Rock-ballasting also increases the strength of the track and otherwise improves its physical condition as to drainage and other matters.

The Canadian Pacific Railway has announced the offer of three free scholarships to apprentices and other employees enrolled on the permanent staff of the company and under 21 years of age, and to minor sons of employees. The scholarships cover four years tuition in architecture, chemical, civil, mechanical or electrical engineering at McGill University and are subject to competitive examination.

Taking steps in the United States toward a greater recognition of clean sportsmanship and the need of conservation of fish, game and forest resources, Oriskany, of Tennessee, editor of Field and Stream, Outdoor Life, Outing, announced at Montreal recently that catching game fish with worms had been banned in practically all states of the republic. Worm fishing is considered destructive as small fish returned to the water are too badly wounded to live.

Sugar beet production in Canada is increasing on a phenomenal scale while the value of refined beet sugar has increased about 100 per cent. In 1924, in 1924, 31,111 acres were planted to sugar beets yielding 235,177 tons of beets, from which 55,779 pounds of sugar was refined with a value of \$6,192,045. In 1925 there was a yield of 169,200 tons of beets from 17,841 acres. The value of the 39,432,160 pounds of sugar refined was \$4,545,000.

E. F. L. Sturdee, general Passenger Agent for the Orient of the C.P.R., has been appointed Assistant General Passenger Agent of the system at Montreal. His duties commenced here in October. He was relieved of his other work owing to ill-health, but the climate of Canada soon restored him to physical well-being. He has a long record of service with the C.P.R., dating back to his first appointment at Saint John in 1894.

Sixty bushels of wheat at every tick of the clock is the rate at which the Canadian Pacific Railway have carried the grain into the elevators this season. To keep up this unprecedented rush, it has been necessary to move one car-load of grain out of Winnipeg at every one minute and twenty-three seconds of the twenty-four hour day. Grain delivered at the head of the lakes by the Canadian Pacific in September alone would fill a fleet of 200 ships, each with a cargo of 200,000 bushels.

Britain Does Not Want Mosul But Is Under Obligations To Protect New Kingdom

Foreign critics and domestic cranks who are fond of decrying Great Britain as a land grabber must have been puzzled by the dispatches which have been coming from Geneva in reference to Mosul, says the Edmonton Bulletin.

At the close of the Great War, the Kingdom of Iraq was carved out of territory formerly subject to Turkish misrule. As British blood and British money had been spent in freeing the country, Great Britain was rewarded for its efforts by being given a mandate to play the role of guide, counselor and friend—and, incidentally, protector—in the new kingdom.

The Turks demand Mosul, one of the choicest valleys in Mesopotamia, with a population of 300,000, none of whom are Christians, the remainder Kurds. Britain appealed the dispute, on behalf of Iraq, to the League of Nations. The league declared that Mosul belonged to Iraq; that it was the business of Great Britain to protect the rights of its ward; and that to make a job of this Britain should extend its mandate for twenty-five years.

The reply of the British representative was that, while Britain would fight the Turks if necessary to protect Iraq, it did not want a twenty-five-year mandate and would not bind itself to accept one. There the matter stands; with a fairly imminent prospect that Britain will have to fight the Turks to protect the people of a country that it doesn't want and for which it is not even willing to accept a twenty-five-year custodianship.

So far from wanting to grab Mosul, or any other part of Mesopotamia, Britain wants to get out of the whole region—if it could find a way to do so without going back on its obligations to the inhabitants and leaving Christians and Kurds alone to be butchered, looted and misruled by the Turks.

Canada's Precious Metals

Explorations By Prospectors Uncovering New Undeveloped Wealth in the production of the precious metals Canada has already taken a foremost place among the countries of the earth, and the entire metal and silver production has been largely and is still growing rapidly, says the natural resources intelligence service of the department of the interior. By a glance at a map of Canada and a little study of the areas where mineral development is taking place will show that but comparatively little of the known mineral area has been touched. In Northern Ontario and in portions of British Columbia a large production is being secured, while promising development is taking place in other provinces. The metal has only been scratched, however, and exploration by prospectors and geologists is uncovering much new undeveloped wealth. There is an opportunity in Canada awaiting the mining engineer and capitalist who would develop new mineral areas.

Advocates Beekeeping

Government Urges the Promotion of Beekeeping in Canada
"Canada has just finished harvesting a billion-dollar crop from her fields, and returns from her studs, herds and flocks will easily total another half-billion dollars," states a bulletin issued by the department of agriculture.

The bulletin employing these figures is urging the promotion of beekeeping in Canada and announces that large quantities of nectar are annually going to waste in Canada. One beekeeper near Lethbridge, Alberta, produced more honey this year than was produced by the entire province in 1924. In Manitoba the honey crop has tripled in three years and in Saskatchewan the reported crop of 1924 was over 62 times as large as that of 1919, the bulletin states.

In a Bad Way

The small boy was not feeling very well after the New Year dinner, so was advised by his mother to go and see the doctor.

"Now, my little man," said the doctor, "what is the matter with you?"

"It's like this, doctor," was the doubtful answer. "You know how you feel when you don't know how you feel? Well, that's how I feel."

Beating the H. C. L. Charles: "How have you been getting along since your marriage?" Horace: "Fine! We're still eating, rice and wearing the old shoes that were thrown at us after the ceremony."

Strange Phenomenon Near Seattle

Flames 100 Feet High Shot From Cold Salty Water

Flames which shoot high in the air from a pool of cold, salty water, in Green River canyon, 25 miles south-east of Seattle, are attracting much attention.

Water in the pool, which is about six feet in diameter, sometimes sinks almost out of sight. Then it rises, troubled with the gas passing through it. If a lighted match is thrown in while it is turbulent, fire flares.

At times the eruptions are particularly violent, throwing out rocks and sending flames 100 feet high. At rare intervals the geyser fails to work at all. These variations have not been explained.

A short distance from the geyser, flames play for two weeks at a time over water which bubbles up between rocks in a stream. Although the water in the geyser pool is salty and contains many minerals, it is within ten feet of a perfectly fresh brook. Sulphur and fresh water springs are found nearby.

This phenomenon is near the bank of Green River, from which Tacoma gets its water supply. Although rumors of "water that burns" had been spread by Indians and hunters, the place was inaccessible until a road was built last year.

Dry Land Vegetable Gardening

Dominion Experimental Farm At Lethbridge Uses Dry Farming Methods

At Lethbridge, Alta., Dominion experimental station the vegetables are planted each year on summerfallow land and the garden is sheltered by single rows of cottonwood trees planted 200 feet apart. The barnyard manure applied is turned under when the land is being ploughed for summerfallow, the application of manure, therefore, is made the year previous to the planting of the seeds. This plan of planting the dry land garden on summerfallow, says the superintendent, Mr. W. H. Fairhead, M.S., in his latest report, is well worth the consideration of the dry land farmer, and especially advantageous if the windbreaks are so arranged as to act as snow traps. The vegetables, even such small growing sorts as lettuce and radishes, are planted in rows three feet apart to allow the horse cultivator ample room to operate between the rows. Such a practice reduces the land labor very materially, points out Mr. Fairhead, and also ensures the plants greater space in which their roots may forage for moisture.

Experimenting With Flowers

Botanist Finds Whiskey Has Same Effect As On People

Alcohol has much the same effect on flowers that it has on human beings, members of the botany faculty at the University of California have learned. Six California poppy buds were used in an experiment. They were placed in jars containing liquids varying from straight water to whiskey. The only flower to bloom was the one in the water. The others became tipsy and leaned over the edges of their glasses not wilted, but just in a stupor, varying in the degree of unconsciousness with the amount of liquor. Later poppies were introduced and their effects marked.

Photographs of this work were taken by Alfred E. Pillsbury, using a movie machine, plus a camera for the stills. A microscope lens and a synchronizing motor was included in the equipment.

Served One Family 90 Years The palm for span of life and length of service goes to Naga Carlotta, born in Mexico, in 1815, who died Dec. 26, at the age of 110 years she was still serving as a domestic in the household of descendants of the family for which she originally worked. She entered the service of this family in 1837, followed by its members to France and remained with them until her peaceful end.

Paris-London Night Air Service Aerolinee flight express service between Paris and London by night will be instituted on the line of the Imperial Airways, Limited. If the freight service is successful a night passenger service will be added. The London-Paris air route is now illuminated at ten different points by special ground lights and flashing beacons.

The first message telegraphed for public purposes in England led to the arrest of a murderer.

Good Business For Old World

American Tourists Spent \$100,000,000 In Europe Last Summer

Americans with the wealthiest list \$300,000,000 to \$100,000,000 as a pocket piece in the Old World last summer. The American invasion was the greatest in history, 50,000 more tourists calling at European ports than during the previous season. The sum spent in Europe in four months for travel expenses, hotel bills and trinkets was eight times as great as the United States handed over to Russia for Alaska, with its gold mines and seal skins.

The Atlantic conference of steamship lines places at 380,749 the number of Americans who sailed from the Atlantic seaboard for Europe in June, July, August and September. From American ports 20,000 tourists left for Italy and other Mediterranean ports in the same period, bringing to 500,000 the number of Americans who "did" Europe during the vacation season.

Okanagan Apples

Growers Have Developed a New Market in India

A new market for Okanagan apples has been opened up in India as a result of the activity of the Canadian trade commissioner in Calcutta in bringing to the attention of importers at that point the advantage of bringing in Canadian apples, which could be sold in India at about half the price which was being paid for apples from the Kashmir. To this end a small shipment of McIntosh, Red, Delicious and Newton apples was made to India by the Associated Growers last year. The last found favor with the Indian importers and early in December, 1925, another and larger consignment was dispatched to India for the Christmas trade. This shipment will be followed by another one some time in January.

New World's Record

British Columbia Yearling Heifer Wins Honors in Butter Production

Exceeding the former champion's record by seven pounds of butter fat, "Fairleigh St. Mary's Rotta," owned and developed by the Dominion experimental station at Summerland, British Columbia, has just established a new world's record for her breed and age, it is announced by the central experimental station. In 255 days she produced 1,012 pounds of milk and 524 pounds of butter fat.

When an estate is divided according to law, it may mean that the heirs get what is left after the lawyers get through.

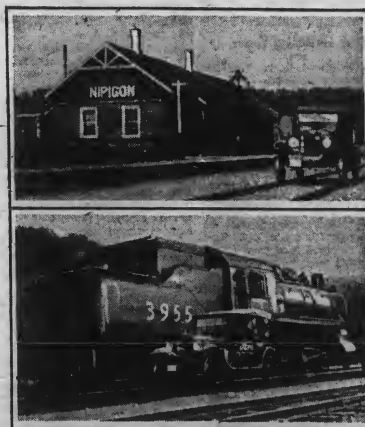

Service

"Waiter, the service is terrific." "Yes, sir, we have an efficiency man now and his system is being tried, sir."

Water, the service is terrific.

"Yes, sir, we have an efficiency man now and his system is being tried, sir."

Ocean to Ocean in a Ford

Commemorating the twenty-first anniversary of the Ford Motor Company of Canada, J. H. Flickenger, accompanied by a member of the company's publicity department, travelled from Halifax, Nova Scotia, to Vancouver, British Columbia, in a standard Ford touring car, covering 4,794 miles, of which 853 was done on C.P.R. steel tracks. They started out on September 8 and reached Vancouver towards the end of October.

The trip was made entirely on Canadian territory and motion pictures, which were taken along the route, were presented to the Dominion Government for educational purposes. The trip was it was necessary to change to a standard Ford touring car, covering 4,794 miles, of which 853 was done on C.P.R. steel tracks. They started out on September 8 and reached Vancouver towards the end of October.

The first change to a standard Ford touring car, covering 4,794 miles, of which 853 was done on C.P.R. steel tracks. They started out on September 8 and reached Vancouver towards the end of October.

Eradicating Bovine Tuberculosis From Canada

Complete Control of This Source Is Making Good Progress

In spite of the tremendous cost involved, owing to the wide distribution of the disease, the Dominion health of animals branch is making good progress in the control of bovine tuberculosis. The minister of agriculture, in his report for 1925 points out that there are now 1,475 fully accredited tuberculosis free herds in Canada and 2,100 undergoing the process of accreditation. This accredited herd plan is a practicable, workable and popular one, and with it it is possible to eradicate tuberculosis in herds and to maintain them free from disease provided the owner takes an active interest in cleaning up his herd and protecting it.

The branch is now conducting a "restricted area" plan, covering large districts with many herds, and it is already proving successful. It is possible to have a herd of cattle more expeditiously and more cheaply by this method than by any other. There is now an area in the Carman district in Manitoba with over 16,500 cattle practically free from tuberculosis. Another area, comprising the counties of Huntingdon, Chateaugay and Beauharnois in the province of Quebec, was dealt with under the "restricted area" plan last year and 57,642 cattle tested.

Valuable Lot Bought For Penny

Is Now Site of \$14,000,000 Hotel in Detroit, Mich.

The site of Detroit's \$14,000,000 Book-Cadillac Hotel once sold for exactly one cent. The purchaser was Mary Watson Hudson, a citizen of Detroit, who obtained the plot of ground in accordance with an act of Congress.

It happened like this: In 1895 the town of Detroit was practically destroyed by fire. Many persons were wiped out of house and home. To aid the sufferers, Congress made an arrangement by which they could for a very small cash consideration, obtain government land. Mary Watson Hudson bought this particular tract for one cent. Ten years after the lot was purchased by a speculator for \$100.

New Cloth Gives Sun Bath Sun baths for everybody now are made possible by the wearing of a new fabric that looks and feels like silk, and allows the sun's ultraviolet rays to pass through it—Popular Science Monthly.

The vote showed 679 against and 609 for the scheme. The decision will be put before the general council of the Quebec Exhibitors' Association who will discuss the matter.

Canada Has Just Entered Upon A New Year With The Brightest Of Prospects

Marketing Poultry Co-operatively

Shipping Live Poultry From the Coast To Distant Markets

Experience leaves no room for doubt that co-operative marketing, based on really sound principles and loyalty, is the very best method. It is pointed out in a bulletin on co-operation and marketing poultry products, issued by the Dominion livestock branch, that the co-operative method presents great opportunities in the marketing of live poultry. The greatest success has been achieved by those who have assembled poultry well-fed poultry, taken off the run, and shipped them in specially constructed cars, provided by the railway companies, to distant selected markets where the home market was better. This has resulted in satisfactory returns being secured in spite of poor home markets. Last year some fifty cars of live poultry were shipped co-operatively, in the various provinces and, in addition, about twenty cars were shipped jointly in the prairie provinces. In the case of one car shipped from the Canadian west to New York, a report was made of the gain of 1,000 lbs. during transit. The wholesale shipping resulted in a great majority of the old stock being cleaned up, and was an incentive to making a much finer poultry market in the fall.

The benefits which may be obtained free from the publications branch, department of agriculture, Ottawa, described in detail how to organize and conduct these co-operative associations for the marketing of poultry.

The benefits which may be obtained free from the publications branch, department of agriculture, Ottawa, described in detail how to organize and conduct these co-operative associations for the marketing of poultry.

American Films in Britain

Minority of Movie Houses Vote For Compulsory British Films

A nation-wide ballot among proprietors of moving picture houses in Britain, many of whom use United States films exclusively, shows a slight majority against a proposal to compel moving picture houses to screen a certain percentage of British films along the lines of a plan suggested by the board of trade.

The vote showed 679 against and 609 for the scheme. The decision will be put before the general council of the Quebec Exhibitors' Association who will discuss the matter.

The vote showed 679 against and 609 for the scheme. The decision will be put before the general council of the Quebec Exhibitors' Association who will discuss the matter.

Alberta Oil Development

New Company to Operate Wells in Turner Valley District

Official announcement is made that the Imperial Oil Company of Canada, has organized a new company, to be known as the Dalhousie Oil Company, to operate the company's properties in the Turner Valley field in Alberta. The Imperial Company recently completed a refinery at Calgary which has been described by oil men as one of the most modern refineries in North America. The company has several wells in the Turner Valley field. It also has complete a pipe line from the field to the Calgary refinery.

Western Butter For Britain

British Market Prepared To Take Almost Entire Supply

It is understood that buyers representing Old Country wholesale produce dealers have been in Western Canada endeavoring to arrange for a regular supply of creamery butter. Western Canadian butter is now highly favored in the British markets, and dealers are prepared to take practically the entire output if they can be assured of a regular supply.

Alberta Poultry

Heavy Shipments Are Made to Eastern Canada and Britain

It is estimated that during the past year 50,000 cases of eggs and 5,000,000 pounds of poultry were exported from Alberta to Eastern Canada, and the Old Country. It was only a few years ago that this province was a fairly extensive importer of eggs and poultry but active campaigns by the Provincial Government and other interested bodies have reversed this situation.

Divers Locate Treasure Ship

Near the scene of the charge of the Light Brigade, divers have located a treasure ship forty feet below the surface of the Black Sea. It is the hull of the Black Prince, which went down with \$25,000 in gold and silver intended for payment of allied armies in the Crimean War, says a dispatch from Moscow.

"I understand you got rid of your old speaker." "Well, not exactly, I'm still paying him, but I've got a new one." "Well, not exactly, I'm still paying him, but I've got a new one."

"I understand you got rid of your old speaker." "Well, not exactly, I'm still paying him, but I've got a new one." "Well, not exactly, I'm still paying him, but I've got a new one."

The natural resources intelligence service of the department of the interior at Ottawa says:

Canada has entered upon a new year which may be to her one of the greatest in advancement that history shall record. With the brightest of prospects, with records of development unsurpassed, she stands to reap a harvest of progress beyond any yet experienced.

Canada is now being rediscovered. The world is awakening to the fact that in our natural resources we have an unconverted wealth beyond the dream of a Midas. Early reports of production for 1925 show material gains in practically all lines of development, while in some of the more important the increases shown have been phenomenal.

In agriculture, without the abnormal conditions created by the war, Canada has reaped crops that have established a record second only to 1915. Her agricultural products are also bringing good prices, so that the farmer will have a reasonable profit above the cost of production.

In mining, the output is increasing. Settled labor conditions exist in all provinces, good markets are at hand for the output, and capital is earning a return sufficient to influence the investment of additional funds for further development.

Canada's forests are now the mainstay of the continent, not only in lumber but in pulpwood. Both the east and the west are being called upon for building materials for the United States and other countries. Lumber, shingles and dimension timber finding a ready market.

More and more is the new spirit of industry of the west being centered in Canada, and particularly is this the case with the North American continent, where Canada has wrested from the United States the premier position in newspaper production. The premier position of Canada in this industry is influencing many of the large organizations across the line to remove their activities to Canada, with the resultant increase in employment.

Canadian fisheries were very successful during the year just past and the sea fisheries of both east and west coasts report excellent yields with good markets for their output.

Canada last season was visited by many thousands of tourists. They come from all parts of the world and carried away impressions that will not easily be forgotten. The hearty welcome they received is evidenced by the stories of their experience appearing in their local press and outing publications. The coming season will witness a still greater influx of these visitors. As a general rule they are free spenders, and they are good advertisers. Canada needs and is rapidly earning the goodwill of the world, and in the coming year in production, enterprise, in energy, and in welcome to our national guests, the tourists, let us still further establish the fact that Canada and Canadians will take second place to no country or no people.

Saskatchewan Corn Growers

Convention For 1926 To Be Held At Estevan

At a meeting of the executive of the Saskatchewan Corn Growers' Association, it was decided to hold the 1926 convention on November 17 and 18, in the town hall, Estevan. Negotiations will take place with M. P. Tully, secretary of the Provincial Registered Seed Growers' Association for the supplying of northern grown corn seed of various varieties to prospective growers for next year.

The Pro Nurseries, Limited, of Estevan, have donated a cup, valued at \$200, which will be presented to the grower giving the best showing of Yellow Flint corn, at the exhibition. The cup is a permanent one, but a small replica of it will be presented to the winner each year.

It is expected that the corn show of 1926 will be unusually successful.

Business Is Business

From a tombstone in a cemetery near Dijon, France, the following unique epitaph was recently copied: "Here lies, surrounded by his family and lamented by his patrons, Pierre Macdonald, restaurateur manager, 1840-1925. He was the 'inventor' of the famous Macdonald omelette, the recipe for which his son, living in the Rue Dijon, this city, is the sole proprietor."—La Belgique, Soles.

In one family of 12 children, they all have names beginning with "L." The names are Lashua, Lydia, Lela, Laura, Lee, Leola, Lillian, Lester, Louis, Lucile, Lester and Lawrence.

In one family of 12 children, they all have names beginning with "L." The names are Lashua, Lydia, Lela, Laura, Lee, Leola, Lillian, Lester, Louis, Lucile, Lester and Lawrence.

WORLD HAPPENINGS
BRIEFLY TOLD

The next and final session of the Alberta Legislature before a vacation will be called to meet, it is expected, about the first of February.

Operating incomes of the Canadian railways for the ten months ending with October was well ahead of the corresponding period last year.

General Ludendorff, Germany's war-time quartermaster general and now leader of her ultra nationalists, has taken up the cause of prohibition.

Montrealers use an average of 71,600,000 gallons of water a day, according to figures just published by the water bureau.

Jules Patenotre, former French ambassador at Washington, died Dec. 28. He was a grand officer of the Legion of Honor and was born in 1845. He had also been ambassador at Madrid.

A campaign has been started by Mrs. J. D. Henderson, Washington's grand old woman, to lengthen women's skirts and to stop the modern fashions from smothering the ankles.

The method by which the ancient Mayas counted time based on the circuit of the planet Venus in the sixth century B.C., has been discovered by Dr. Herbert Spinden, of Harvard University. It is announced.

The national death rate in the United States for 1924 by the commerce department at 11.9 per 100,000 of population, on the basis of figures for 1924, as compared with 12.5 in 1923; 11.5 in 1922, and 11.4 in 1921.

A new protein food made from beet serum, which has all the characters of white of eggs, has been developed by Professor J. W. M. Dinkler, of Harvard.

The new food is said to be rich in energy. Readily digested and entirely practicable.

Near relatives of Holland persons receiving relief from the Social Welfare Commission at Winnipeg, will be compelled to contribute their support, if a bill to be presented to the next session of the Manitoba Legislature is adopted.

Manitoba's government-owned telephone and radio systems have enjoyed a profitable year. The radio branch, which operates station CKY, is declared to be the only known station on the continent to have cleared expenses during the year.

The colors of the Jewish battalion which fought during the war were great Britain's forces against the Turks for the liberation of Palestine have been deposited in the great synagogue of Jerusalem with impressive ceremonies.

Ask Protection For Children

Wandering Bands In U. S. Raise Funds For Unscrupulous Persons

Travelling across the continent, wandering bands of children, ranging in ages from 4 to 15 years, have been discovered by agents of the department of labor, Washington. They are being used by conscienceless persons to raise funds, presumably for their benefit.

National action to protect this new group of "migratory children" is being asked for by Miss Grace Abbott, chief of the children's bureau, in her annual report made public recently.

This nomadic existence on the part of children has never been duplicated before in history since the time of the children's crusade in the middle ages.

Received Wonderful Gift

Blind From Birth Two Virginia Girls Had Eight Restored Day Before Christmas

Two mountain girls, blind since birth, walked from a Huntington hospital, Dec. 21, and marvelled at the wonders they saw upon. Their sight had been restored, a Christmas gift from their mountain neighbors and a Huntington surgeon.

Neighbors interested Dr. C. M. Haves, of Huntington, in their case and the doctor said he was willing to perform the delicate operation necessary, without cost.

The neighbors raised a fund to defray hospital expenses.

Using Reclaimed Land

Twenty thousand acres of reclaimed land in the Wabamun district, west of Edmonton, Alberta, will be seeded to timothy and leased to farmers who would raise hay on a large scale.

It is believed the soil bottom of the shallow lake that formerly covered the area will yield tons of hay per acre. Clover and grasses do well in that part of the country. One farmer harvested three crops of alfalfa this season.

Any fool can talk, but only wise men know how to think.

W. N. U. 1610

Gave Everything To Charity

Late Queen Mother Left Little Money But Considerable Property

If the will of Queen Mother Alexandra is published it will be found that she left almost no money. This is the understanding in court circles, where it is said that the Queen Mother's generosity was limited only by her resources.

She gave away all her surplus income, and for many years she pledged all her annual allowance of £70,000 in advance to needy institutions and individuals.

However, she had much valuable property, including some fine china and the art collections left by her husband, Edward VII. She also had fine libraries at Sandringham House, where she died, and at her town residence, Marlborough House.

Sandringham House was her own, having been left her by King Edward VII.

It is commonly supposed that King George will be heir to all, or almost all, of his mother's property.

Queen Alexandra gave most of her jewelry to other members of the royal family several years ago.

Miracle Of Sound Waves

Wonderful Things Are Performed Every Hour Of The Day

As an electrical engineer ordered "Start" at the Nottingham Electricity Exhibition, the driving wheel of a motor whirled into movement. As he said "light," a cluster of electric lamps began to glow.

Like the magician in the Arabian Nights, he had but to say the Word of Power and the forces of Nature obeyed.

One of the modern miracles was no miracle at all. The engineer had invented a device which converted sound waves, such as his voice set in motion, into electric waves, and these, acting on an electric circuit, released the current which turned the motor.

The sound waves were not allowed to flow through the glow-lamps to make them light. Miracles like these are performed every hour of the day when sound waves are turned into electric waves and are wafled over land and to be transformed into sound waves again on the crystal sets of the wireless.

Importance Of Moving Pictures

Famous Movie Director Speaks Of Industry To Toronto Auditors

The importance of the movie picture as an international factor was emphasized by Rexford Ward, famous "movie" director, in an address before the Canadian Club at Toronto.

He declared that the motion picture industry was a great international advertiser and ambassador.

"In war and peace, it is a key industry," he said. "I would almost go so far as to say that no great country of the future can control and maintain territories throughout the world if it does not possess a great moving picture industry. It is as of great importance to national commerce as banks and great steel industries."

Enlarging on his theme, Mr. Griffith pointed out that the screen provided trade advertisements that needed no translation, claiming that no business propaganda could compare with it.

Woman Was Business Genius

Started Small Store in Paris and Amassed Huge Fortune

A woman business genius, who boasted that she had never taken a single day's vacation in fifty years, Mme. Louise Cognac, died recently in Paris at an advanced age.

She and her husband, Theodore Cognac, not only philanthropist, met when working as clerks in a Paris drygoods house. They were married in 1872 and with their joint savings opened in Paris a little establishment, which is now a department store of immense proportions, said to have the largest turnover in France.

They amassed a colossal fortune. Every day, rain or shine, the couple, even when both were over eighty years, were the first in the store when the doors opened and the last to leave when they were closed.

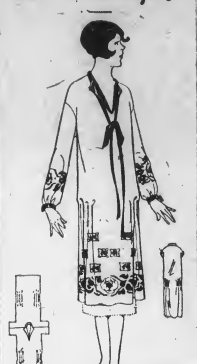

Nails Used To Curb Speeders

Greek traffic cops have found that harsh words and fast motorcycles are little help in discouraging speed violators and have resorted to the use of boards carrying several long nails.

These nail-filled boards are crude but effective substitutes and have accomplished more than any other system used by the Greek traffic cops to curb speeders.

Alberta Poultry Pool

A poultry pool is now in operation in Alberta under the name of the Alberta Co-operative Poultry Producers Limited. Poultry products will be marketed through the Provincial Government's marketing service, which has offices in Edmonton, Calgary and Lethbridge.

The New Costume Blouse.

One of the new silks having an attractive border design has been chosen for the fashioning of this charming blouse.

The new trimming feature of fine lace is introduced in the groups placed at the hips either side of the front and back, emphasizing the blouse effect; and right down the center of the front.

It tells you that the smartest way of wearing your tucks is on the inside of your front with just the back of the seam showing on the outside.

The appeal of this blouse lies in the length. Frequently one has dresses that are worn at the top and around the hips, yet quite good at the lower edge.

The worsted top may be cut off, making a slip over which this blouse may be worn, making a charming costume.

The full sleeves are gathered into narrow bands at the wrists, and a collar with long ends is tied in the front. No. 1245 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 1/2 yards 40-inch, or 2 1/4 yards 54-inch material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

A Forbidding Factor

Time is found to be formidable obstacle to Empire Broadcasting.

An obstacle to empire broadcasting, more formidable than distance and more permanent than static, threatens to defeat the plans to entertain Dominion radio listeners from a central station in England.

The idea envisaged by the creation of a station which would relay the regular domestic programmes throughout the empire.

The forbidding factor is time. Australia's night is England's day. Dance music broadcast from London at 10 p.m. would reach Australia at 8 a.m., just as the work day began.

Canada is affected by time differentials to a lesser extent, but only in South and West Africa is the difference in time sufficiently slight to permit the maintenance of a regular programme.

Instrument Measures Trees

Shows Growth Every Day and Records Last Expansion

There has been invented a wonderful new instrument which measures the growth of a tree from day to day. It is placed around the trunk of a tree and records the least expansion.

Experiments which were made on western yellow pine showed no growth on a large tree during sixteen days in July.

A small tree recorded growth each day for one hundred and seventeen days; the large tree on eighty-eight days only. It showed that pine has its greatest growth in June.

Time To Be Fishing

The correct time to go fishing does not depend so much on the moon, the sun, the direction of the wind or even the condition of the water. The correct time to go fishing is when house cleaning starts.—Toronto Telegram.

When you see a man standing with his wife before a window full of hats you know she is boss.

A Tribute To Chamberlain

Locarno Treaty The Biggest Stone Yet Laid In The Temple Of Peace

Says The Manchester Guardian: "This country has long prided itself on the little rancour that there is in its political life. The storms and passions of debate quickly subside under the courtesy of personal intercourse between people who do not always impute base motives to those with whom they disagree.

But the dinner which was given in Mr. Chamberlain's honor, and which included people distinguished in a variety of the walks of life, was not exactly of this character. It was a tribute as rare as it was well deserved, even in a country where friendship between political opponents is not rare.

It marked not only the esteem of his opponents but their belief that he had handled an exceedingly delicate piece of business with conspicuous credit to himself and his country.

For his share in the making of the Locarno treaty he has won almost universal and unqualified admiration.

The Locarno treaty may not be perfect, but it is the biggest stone laid on the Temple of Peace since the foundation of the League of Nations.

And among the craftsmen who fashioned it Mr. Chamberlain brought just the temper, judgment and character that were needed.

He was fortunate in his collaborators, but he has generously acknowledged, as they have certainly not less fortunate in him."

Messages For Far North

Mounties in Arctic Circle Received New Year Greetings Over Radio

The Mounties in Inland and Polar Regions, above the Arctic Circle, had a New Year's Eve reception.

The colorful dress uniforms of the Royal Canadian Mounted Police were not necessary, for the reception was merely the reception of special messages from families and friends broadcast by prearrangement by Western house station KDKA at Pittsburgh, WIZ at Springfield, KYW at Chicago, and KFKX at Hastings.

The broadcast took place Tuesday night, December 31, immediately after the relaying of the Arlington time signals.

On the old days, the Canadian police posts usually did not hear from civilization until the middle of the next summer, when the supply ship came to them with mail and provisions.

Now, all these posts have direct radio links with the Canadian and United States radio stations all through the long winter.

The messages were sent by the families and broken to the police headquarters in Ottawa and forwarded for transmission.

Object Of Punishment

Protection Of Law-Abiding Citizens Is The First Consideration

Sir Walter Shaw, late chief justice of the Straits Settlements, writing to the Daily Mail, says:

"I notice that the home secretary, in his address to the Discharged Prisoners' Aid Society, appears to have subscribed to what seems to me to be a common fallacy prevailing at the present time, and that the prime object of punishment for crime is the reformation of the offender."

Surely the first object is the protection of law-abiding citizens by discouraging criminally disposed persons from committing offences.

Although the reformation of the particular offender is earnestly to be contemplated, are we not, in our modern age, for the purposes of justice, somewhat inclined to forget that it is merely a secondary object of prison discipline?—London Daily Mail.

Beaverbrook's Fascinating Career

A Man Of Striking Personality And Marked Versatility

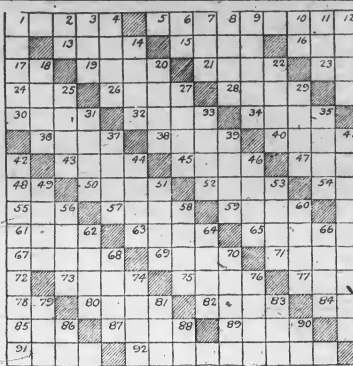

Son of a penniless prospector; insurance salesman; Montreal banker; British M.P.; peer of the realm; maker and breaker of ministries; journalist and author; half Imperialist and half Radical; Conservative and realist—Beaverbrook's career, no matter how judged, is as strange and as fascinating as a fairy tale.

Summing up such a character, indeed, it is not easy to generalize. Arnold Bennett has committed himself to the statement that Beaverbrook is one of six great types of men that, of course, is untrue. But he is nevertheless a great figure, one of the forces of his time, with a personality and a career that will leave their mark upon contemporary history.—Ottawa Journal.

Turkeys Marked On Pool Plan

Eight carloads of turkeys were marketed during 1925 by the co-operation and marketing branch of the Saskatchewan department of agriculture. "These turkeys were marketed co-operatively on the pool plan and the final price has not yet been determined. They had also been sold, subject to grade and weight at points of shipment."

OUR CROSSWORD PUZZLE

Horizontal

1—Liquid.

2—Given to pleasure.

3—A circuit.

15—To smooth out.

16—A kind of monkey.

17—Part of verb to be.

19—Epochs.

21—From from pain.

22—Faintness (abbr.).

23—Floor washer.

24—Noun, verb.

26—To revise.

27—A nihilist.

28—Plaster than a walk.

29—Flows out.

Thirrt from
one year's run
in New York

Here and There

Timber exported from British Columbia during the nine months ending September 30, 1925 was \$6,683,300 feet, compared with \$6,600,000 feet for 1924; 46,843,000 feet in 1923; and 49,820,000 feet in 1922.

A project is under way at Toronto for the construction of the largest hotel in Canada, which also means the largest hotel in the British Empire. It is understood that the new structure will be even larger than the Roosevelt in New York.

The apple crop in the Okanagan Valley, British Columbia, this year is estimated at 5,300,000 boxes. At a fair estimate of a dollar and a half a box, the return to growers in this district will be approximately four million dollars.

The Eastern International Dog Derby will be run at Quebec on February 18, 19 and 20. The course provides for a distance of 46 miles a day for three days, irrespective of rain, snow or storm. The winner will receive \$1,000 and a gold cup. Other competitors will be awarded prizes aggregating \$2,200.

Immigration to Canada for the six months from April 1 to September 30, 1925 totalled 57,088. Of this number 25,072 were from Great Britain and Ireland, 11,199 from the United States and 20,815 from other countries. In the same period 18,282 Canadians returned from the United States.

With Canadian ensign flying and all her gala bunting aloft, the Canadian Pacific liner Empress of Scotland left the harbor of New York sharp at noon on December 3 on the first part of her journey in the course of which she will completely circumnavigate the globe, covering approximately 30,000 miles, visiting nineteen different countries and making twenty-four ports of call.

Canadian Pacific Railway gross earnings for the month of October were \$19,569,188.48 an increase of \$1,472,223 over the corresponding period of 1924. Net profits were \$7,444,027.06 or an increase of \$421,849.85 over \$7,022,177.23 for October 1924. Net profits for the ten months ending October 31 were \$23,070,949.01 an increase of \$1,611,839.53 over the sum of \$27,468,059.49 for the same period of 1924.

According to advices from a reliable source, conditions in the West have shown constant improvement this year. The crop has been gathered, threshing is finished, and the grain has been stored in elevators. With the extraordinarily rapid dispatch of wheat, money is steadily coming in to farmers, giving them an opportunity to clear off debts and leaving them enough to extend their purchases.

The first Christmas holiday special over the Canadian Pacific Railway bearing three hundred happy Westerners bound for the Old Country arrived at St. John, N.B. in time to connect with the Canadian Pacific liner Montrose which will land them in Great Britain in time for the Christmas holidays. The special, travelling as the second section of the Imperial Limited, was composed of eight sleepers, one from Edmonton, Calgary, Moose Jaw, Kerrobert, Sask., Shaunavon, Sask., and two from Winnipeg.

Celery is good for the nerves. So is salary.

A straight-from the shoulder talk is all right if the shoulder isn't crooked.

Lethbridge Vets won from the local Tigers at Lethbridge Tuesday in a hockey fixture played on a water covered surface, by a score of 2-1.

What becomes of all the Christmas cards?
